

for NAR Director

Why pick Maureen?

My volunteer path has never been about me — it comes from a genuine desire to serve. I would like to continue working toward the betterment of our industry as an at-large NAR director. You, and all our members, will remain my #1 priority.

I've served in volunteer positions in Realtor® associations since shortly after entering real estate in 2001. I always strive to leave things better than when I arrived. Helping others is baked in to my DNA. No matter how challenging the task, I study all options, listen to concerns of those involved and look for creative solutions that will benefit our members. I've willingly taken on the most pressing issues our state association has ever faced and I've guided our members through some of the most tumultuous times in their careers. Please let me continue working for you.
